* If the advertisements inserted on account of the Patent Office had been paid for (as are those of the Indian Government, the Ecclesiastical Commissioners, and the Bankruptcy Court) this amount would have been increased by a further sum of 3,452*l.*

Sir,

Her Majesty's Stationery Office, 24 December 1875.

I HAVE the honour to forward herewith, for the information of the Lords of Her Majesty's Treasury, an Estimate of the sums that will probably be required to defray the expenditure of this office for the public service during the financial year 1876-7, showing a total of 494,885 *l*.

A.—Salaries, Wages, &c.

The net increase of 715 *l*. above the sum required last year is attributable almost entirely to the annual increments, in addition to the cost of three new clerks added to the establishment in consequence of the resumption of the subsidiary ledgers determined upon by the Lords of the Treasury, with a view to ascertaining more exactly the several expenditure of the various Government Departments.

D.—Incidental Expenses for Public Departments.

I think it probable that we may need a small increase under this head, to meet the carriage of larger amounts of waste for sale (a repaying expenditure); and probably some increased outlay for advertising, if the system introduced this year be much extended.

E.—Printing for Public Departments.

We anticipate that our expenditure will this year have exceeded our Vote by 1,800 *l*., owing to gradual growth in the demands of certain Departments, such as the Education Office, which is extending, and expects to extend, at the rate of 10 to 15 per cent. annually; and the casual increase in the wants of others, such as the Home Office, for the new Inspectors of Explosives, for example, and the printing of the Orders in Council, recently undertaken; and I have no reason to believe that such casual increments will cease. The various changes introduced by the new Judicature Act are, we find, involving us in much fresh outlay, the extent of which we cannot yet estimate. The Inland Revenue Department always needs 1,000 *l*. additional in the years (like the coming one) when there is a fresh assessment for the Income Tax. The change of Forms in the War Office consequent on the abolition of the Control Department, &c., and general increment, will probably involve us in at least another 1,000 *l*. or 1,200 *l*. of outlay,—say in all 4,000 *l*.

To set against this, we are assured that the Telegraph demands upon us will be reduced, say 1,200 *l*.; while various economies we are carrying out in conjunction with the several Departments, in reduction in the size and number of certain forms, the disuse of coloured inks, and the new contract for the Store forms at Somerset House, will save another 1,000 *l*. On the whole, I cannot well estimate our requirements under this head for the coming year at less than 124,000 *l*.

F.—Paper for Public Departments.

It appears probable from the state of our accounts at this period of the year that we shall have exceeded our Vote under the Sub-head of Paper by about 9,000 *l*. About 5,000 *l*. of this may probably be attributed to that increased consumption in various departments inevitably involved in the increased printing and general business already spoken of. The rest must arise from a decided augmentation in the value of the stock on hand over that which we held at the beginning of the year; an augmentation largely due to extensive purchases of a new and cheaper description of paper, which we are beginning to substitute for qualities still in store. Much of this excess of stock I hope may be at hand to reduce our requirements for next year; but I scarcely think it would be safe to estimate the sum needed at less than 145,000 *l*.

G.—Parchments for Public Departments.

It is probable that the expenditure under this head will exceed the vote for 1875-6 by 1,000 *l*., but as by far the larger proportion of the parchments and vellums are sent to the Inland Revenue for sale to the public at a profit, the amount is of little importance, and, depending as it does a good deal on the state of trade, it cannot well be calculated beforehand. I propose to take 16,000 *l*.

H.—Binding for Public Departments.

According to present appearances, we anticipate a saving under the Sub-head of Binding for this year of upwards of 2,000*l.*; but if this expectation be realised, the expenditure next year is not unlikely to be swollen in consequence. On the other hand, we expect a reduction under the head of Telegraphs of nearly 600*l.*, besides other slight economies. I propose, therefore, to ask for 40,000*l.*, or 1,300*l.* less than last year.

I.—Small Stores for Public Departments.

Our expenditure under this Sub-head this year will probably exceed our estimate by about 3,500*l.*, which is due partly to a large outlay for books, stamps, and seals, caused by the creation of the new High Court of Judicature, to the extent of upwards of 1,400*l.*; partly due to special works ordered for the Admiralty and the Foreign Office, and an excessive outlay on account of Revised Statutes (of which extra volumes and a fresh index have been prepared). The Public Stores Act has also involved considerable extra expense for marking. There has also been that gradual growth which must be looked for in most years in many Departments, and which often amounts to a considerable aggregate. On the whole we can scarcely calculate to need less than 45,000*l.* for next year.

J.—Printing, Paper, &c. for two Houses of Parliament.

How impossible it is for us to offer more than a vague conjecture of our probable requirements under this Sub-head, it is needless again to point out to their Lordships. In recent years the expenditure has varied thus, and of course independently of our foresight or control:—

	£.
1870-1 - - - - -	86,879
1871-2 - - - - -	88,862
1872-3 - - - - -	82,030
1873-4 - - - - -	77,855
1874-5 - - - - -	91,528
1875-6 - - - - -	88,630* estimated.

We shall be relieved by the 31st March of the expenses on account of the Landholders' Return and the Irish Census, but other unlooked for calls may be expected to arise, and I therefore doubt whether I ought to ask for less than 85,000*l.*

K.—Printing, Paper, &c., for Stationery Office Publications.

These, as their Lordships are aware, are always varying in amount, and their number is rarely to be foreseen. Their tendency, however, is always towards augmentation, and the publications of the law courts are now thrown upon our Vote, as well as some issued by the Home Office. They are, however, sold to the public, and their proceeds, which are often large, paid into the Exchequer. I think 15,000*l.* should suffice.

L., M., N., O.—Gazettes and Parliamentary Records.

There is no variation requiring notice in the anticipated expenditure under these Sub-heads.

I am,

Sir,

Your obedient Servant,

W. R. Greg,

Controller.

* 2,189*l.* was under special Treasury order for Arrowsmith's bill for arrears.

F.—The numbers, 2,071,997 Day Scholars and 51,964 Evening Scholars, are arrived at as follows:—

	Day Schools.	Evening Schools.
Average number of Scholars in attendance in Schools actually inspected in the year ended 31st August 1875. This number is the basis of calculating the other figures in these columns - -	1,837,125	48,382
Add for increase for one year for Day Schools, at 8·7 per cent. -	169,821	—
Add for increase for one year for Evening Schools, at 5 per cent. -	- - -	2,418
Estimated average number in attendance at Schools to be inspected in the year ending 31st August 1876 - - - - -	1,996,946	50,800
Add for increase on 1,996,946 Day Scholars, and 50,800 Evening Scholars for the <i>seven</i> * months to follow from 31st August 1876 up to 31st March 1877 :		
Five and a half twelfths* of 8·2† per cent. on 1,996,946 Day Scholars	75,051	—
Five and a half twelfths* of 5 per cent. on 50,800 Evening Scholars -	- - -	1,164
Estimated average number of Scholars in attendance in Schools to which grants will be paid in the year ending 31st March 1877 -}	2,071,997	51,964

The rate of grant actually paid per *day* scholar, according to the average number in attendance, for the years ending 31st August, rose under the Revised Code from 8 s. 1 d. in 1863, and 9 s. in 1864–5–6–7, 9 s. 4½ d. in 1868, 9 s. 7 d. in 1869, to 9 s. 9¼ d. in 1870. The grant for the year ending 31st August 1871, was paid partly under the Revised Code, and partly under the New Code, 1871; it reached 10 s. 1¾ d. per scholar. The rate has risen under the New Code, from 11 s. 9¾ d. in 1872 to 12 s. 2½ d. in 1873 to 12 s. 3½ d. in 1874, and to 12 s. 7 d. in 1875; it is estimated that, under the conditions of the Code for 1875, the rate of grant will be 13 s. 8 d. for the financial year ending 31st March 1877.

The rate of grant per *evening* scholar, according to the average numbers in attendance, for the years ending 31st August, was 5 s. 9½ d. in 1865, 5 s. 8 d. in 1866, 6 s. 3 d. in 1867, 6 s. 4½ d. in 1868, 6 s. 6½ d. in 1869, 6 s. 9 d. in 1870, and 6 s. 7¾ d. in 1871. The grant for 1872 was paid partly under the Revised Code, and partly under the New Code, 1872; it reached 6 s. 10¼ d. per scholar. In 1873, the rate had risen under the New Code to 7 s. 8¼ d.; in 1874 it fell to 7 s. 8 d., but in 1875 it rose to 7 s. 9 d.; it is estimated at 7 s. 10 d. for the financial year ending 31st March 1877.

E.—By Minutes of the Committee of Council on Education, dated the 26th June and 16th July 1875, it was resolved to grant a limited number of pensions to certificated teachers, who have been employed in that capacity since 1862, when the former Minutes relating to pensions were cancelled.

G.—Section 97 of the Elementary Education Act, 1870, provides, *inter alia*, that “where the School Board satisfy the Education Department, that in any year ending the 29th September, the sum required for the purpose of the annual expenses of the School Board of any school district, and actually paid to the Treasurer of such Board by the rating authority, amounted to a sum which would have been raised by a rate of 8 d. in the pound on the rateable value of such district, and any such rate would have produced less than 20 l., or less than 7 s. 6 d. per child of the number of children in average attendance at the public Elementary Schools provided by such School Board, such School Board shall be entitled, in addition to the annual Parliamentary Grant in aid of the public Elementary Schools provided by them, to such further sum out of moneys provided by Parliament, as, when added to the sum actually so paid by the rating authority, would, as the case may be, make up the sum of 20 l., or the sum of 7 s. 6 d. for each such child, but no attendance shall be reckoned for the purpose of calculating such average attendance, unless it is an attendance as defined in the said Minutes,” *i. e.*, Minutes of the Education Department in force for the time being.

H.—Section 96 of the Elementary Education Act, 1870, provides, *inter alia*, that “no Parliamentary Grant shall be made in aid of building, enlarging, improving, or fitting up any elementary school, except in pursuance of a memorial duly signed, and containing the information required by the Education Department for enabling them to decide on the application, and sent to the Education Department on or before the Thirtieth day of December, One thousand eight hundred and seventy.”

I.—In calculating the Estimate for Grants to Training Colleges, it is assumed that 100 l. represents the cost of training a male, and 70 l. that of training a female student, during two years. The College is credited annually with 100 l. for each of its male, and 70 l. for each of its female students, who, after probationary service as a teacher, obtains a certificate; at the same time the total amount of the grant is limited to 75 per cent. of the approved expenditure, and also depends upon the number of students for the time being in residence.

It is estimated that the students in residence in 1876 will exceed the number in residence in 1875 by about 70

K.—This Estimate provides for expenses to be incurred in carrying into effect the provisions of the Education Act which relate to the organisation of school districts.

* Each year of inspection is closed on 31st August, in order to allow time for the tabulation of its results. The end of the financial year (31st March) falls seven months later. It is sufficient to add *five and a half* instead of *seven* months at the increased rate, because payment is ordinarily six weeks in arrear of inspection.

† It is not expected that the *rate* of increase will remain the same throughout the *nineteen* months covered by this Estimate.

This and the remaining pages do not contain Estimates, but Accounts of the past year, given by way of explanation.

8.—PUBLIC EDUCATION, SCOTLAND—*continued.*

D.—The numbers, 346,842 Day Scholars and 14,807 Evening Scholars, are arrived at as follows :—

	Day Schools.	Evening Schools.
Average number of Scholars in attendance in Schools actually inspected in the year ended 31st August 1875. This number is the basis of calculating the other figures in these columns - -	303,536	10,628
Add for increase for one year, viz. : 9·5 per cent. for Day Schools and 25 per cent. for Evening Schools - - - - -	28,835	2657
Estimated average number in attendance at Schools to be inspected in the year ending 31st August 1876 - - - - -	332,371	13,285
Add <i>five-and-a-half-twelfths</i> * of the same rate of increase on 332,371 Day Scholars, and 13,285 Evening Scholars, for the <i>seven</i> * months to follow from 31st August 1876 up to 31st March 1877 :		
Five-and-a-half-twelfths of 9·5 per cent. on 332,371 Day Scholars	14,471	—
Five-and-a-half-twelfths of 25 per cent. on 13,285 Evening Scholars	- - -	1,522
Estimated average number of Scholars in attendance in Schools to which grants will be paid in the year ending 31st March 1877 - - -	346,842	14,807

In the year ending 31st August 1873, the grant was paid under the conditions of the Code of 1860, the rate per *day* scholar, according to the average number in attendance, was 9*s.* 10½*d.* ; in the year ending 31st August 1874 it rose, under the conditions of the New Code, to 11*s.* 10½*d.*, and in the year ending 31st August 1875, to 13*s.* 4*d.* ; it is estimated that the rate of grant paid in the financial year ending the 31st March 1877, will be 14*s.* 6*d.*

The rate of grant per *evening* scholar, according to the average number in attendance in the year ending 31st August 1875, was 7*s.* 7*d.* ; it is estimated at 7*s.* 9*d.* for the financial year ending 31st March 1877.

D.—Section 67 of the Education (Scotland) Act, 1872, provides, *inter alia*, that “Where in any parish or burgh a school rate of not less than three pence in the pound on the rateable value of such parish or burgh shall be levied, and the whole produce of such rate is less than twenty pounds or more than seven shillings and sixpence per child of the number of children in average attendance at the public schools provided by the school boards in such parish or burgh, such school board shall be entitled, in addition to the Parliamentary grant in aid of the public schools provided by them, to such further sum out of moneys provided by Parliament as will, together with the produce of the rate, make up the sum of twenty pounds or seven shillings and sixpence for each such child.”

E.—By Minutes of the Committee of Council on Education in Scotland, dated the 26th June and 16th July 1875, it was resolved to grant a limited number of pensions to certificated teachers who have been employed in that capacity since 1862 when the former Minutes relating to pensions were cancelled.

F.—Section 67 of the Education Act (Scotland), provides, *inter alia*, that, “No Parliamentary grant shall be made in aid of building, enlarging, improving, or fitting up any school, except in pursuance of a written application from a school board, containing the information required by the Scotch Education Department for enabling them to decide thereon, and sent to the said department on or before the 31st day of December One thousand eight hundred and seventy-three, but without prejudice to applications made prior to the passing of this Act being dealt with according to the existing laws.”

G.—In calculating the estimate for Grants to Training Colleges, it is assumed that 100*l.* represents the cost of training a male, and 70*l.* that of training a female student, during two years. The College is credited annually with 100*l.* for each of its male, and 70*l.* for each of its female students, who, after probationary service as a teacher, obtains a certificate ; at the same time the total amount of the grant is limited to 75 per cent. of the approved expenditure, and also depends upon the number of students for the time being in training.

The number of students in training, in respect of whom grants are made, is largely increased in the current over the past year.

* Each year of inspection is closed on 31st August, in order to allow time for the tabulation of its results. The end of the financial year (31st March) falls seven months later. It is sufficient to add *five and-a-half* instead of *seven* months at the increased rate, because payment is ordinarily six weeks in arrear of inspection.

EXTRACT from LETTER of Sir T. DUFFUS HARDY to the Treasury, dated 7 January 1876.

THE Fifth Report of the Commission is now in type, and will be presented to both Houses shortly after the meeting of Parliament.

A new Commission was signed by Her Majesty on the 7th December, and it is scarcely possible to give an opinion as to its probable duration. Many collections of MSS. offered by their owners for inspection have not yet been dealt with, and the Commissioners believe that their further operations will include every private collection of any extent or importance which has not yet come under their cognisance.

EXPLANATIONS.

Class I. Vote 1.—*Royal Palaces*.—This is a casual difference between Grant and Expenditure.

- „ „ 3.—*Public Buildings*.—The cost of certain special work for the supply of water exceeded the Estimate, and the repairs required at Broadmoor Criminal Lunatic Asylum were more extensive than had been anticipated.
- „ „ 4.—*Furniture of Public Offices*.—Casual difference between Grant and Expenditure.
- „ „ 5.—*Houses of Parliament*.—The provision for Police was accidentally reduced, and the charges for furniture exceeded the Estimate.
- „ „ 8.—*National Gallery Enlargement*.—An expenditure which had been determined on was inadvertently omitted from the Estimate.
- „ „ 17.—*Portland Harbour*.—The amount of this Excess of Expenditure was required to complete the works, which, however, have not cost more than was originally authorised.
- „ „ 27.—*Lighthouses Abroad*.—The construction of the Lighthouse on the Bird Rock, Bahamas, has proved more costly than was anticipated, and a larger amount of Expenditure than was estimated for has fallen within the financial year.

Class II. Vote 4.—*Home Office*.—Notwithstanding Surpluses on several Sub-heads, a net Deficit has arisen on the Vote in consequence of the increase of the travelling expenses of Inspectors of Factories and Mines.

- „ „ 9.—*Privy Seal Office*.—This Excess arises from the omission of a small charge from the Account for 1873-4.
- „ „ 15.—*Registrars of Friendly Societies*.—The salary assigned to the office of Registrar in England was increased, and extra work was required from the clerks for arranging and calendaring the rules of Building Societies.
- „ „ 23.—*Public Works Loan Commission and West India Islands Relief Commission*.—This Excess arose from additional clerical labour and the employment of an additional messenger.
- „ „ 25.—*Stationery and Printing*.—This Excess mainly arises on the Sub-head “Supply of Paper for Public Departments.” The Accounting Officer attributes the Excess to—1. Smaller receipts for credit of the Vote; 2. Earlier payments; 3. Rise in Price; and, 4. Greater issue of expensive paper.
- „ „ 29.—*Exchequer and other Offices in Scotland*.—The Salaries of the Department were improved during the year; partly in consideration of the loss of emoluments for Income Tax duties.
- „ „ 30.—*Fishery Board, Scotland*.—The Estimate for “Cutter and Boat Service” proved to be insufficient.
- „ „ 32.—*Register Office, General, Scotland*.—The charge for the Census 1871 exceeded the amount provided.
- „ „ 34.—*Household of the Lord Lieutenant of Ireland*.—Certain payments which should have been made in 1873-4 were made in 1874-5. The provision for Incidental Expenses was insufficient, and certain Salaries were increased.

Class III. Vote 12.—*Police, Counties and Boroughs, Great Britain*.—This Excess is attributed to—1. Payment for 1872-3; 2. Payments to Boroughs, whose Police Forces had for the first time reached the standard of efficiency; and, 3. Increase in the numbers of the various Forces.

- „ „ 13.—*Convict Establishments in England and the Colonies*.—Arrears were paid to the Colonial Government, New South Wales. Extra Receipts beyond the Estimate, to the extent of 9,900 l., were realised during the year.
- „ „ 22.—*Law Charges and Criminal Prosecutions, Ireland*.—The Excess mainly arises on the provision for “Prosecutions, Prosecutors, and Witnesses, and General Law Expenses.” The Accounting Department states it to be impossible to estimate approximately the sum required,

Explanations—continued.

Class IV. Vote 7.—*University of London*.—The Excess was caused by the necessity for increased Examiners.

Class V. Vote 1.—*Diplomatic Services*.—Various unanticipated Payments for Salaries and Allowances to Ambassadors had to be made during the year, and the Expenditure for the North American Boundary Commission and for Special Missions generally, was more than had been anticipated.

„ „ 2.—*Consular Services*.—Under recent regulations certain portions of the expenses of a Consul in travelling to and from his post have been allowed to be charged against the Public; the provision for Chapels, Chaplains, &c., was reduced, but it was afterwards settled to maintain some of the Grants at their former amount; and a series of Telegrams had to be sent from Shanghai for which no provision had been made.

Class VI. Vote 3.—*Relief of Distressed British Seamen Abroad*.—Payments on an increased scale for Passage Money of distressed Seamen had to be made. The Estimate was prepared on the old rates.

Class VII. Vote 2.—*Deep Sea Exploring Expedition*.—This Excess mainly arises on the provision for Stores, an Estimate for which could not be accurately framed in England.

III. DETAILS of the foregoing.

- A.—Three new Clerks were appointed by the Treasury in April 1875, and this will account for about 300 *l.* of the Excess. It has also been found necessary to employ additional temporary Porters, in consequence of increased business.
- D.—The new system of advertising Contracts, as directed by the Treasury, accounts for 100 *l.*; and the balance consists of increased payments for Carriage of Waste Paper, &c., which is sold for the benefit of the Exchequer.
- E.—This Excess is mainly due to certain printing charges devolving on the Stationery Office in the current official year, which could not be contemplated when the original Estimate was framed in December 1874, and some not till the last moment. These unlooked for causes of excess in Printing will prove more burdensome than was expected in December last. Among them may be mentioned, The Philadelphia Exhibition Commission, under Treasury letter of 27 February 1875; the legislation of last Session as to New Judicature, Trade Marks, Friendly Societies, Explosive Substances, and Land Transfer; the substitution of printing for manuscript in the cases of the Orders of the Privy Council and of the Charity Commissioners; extra printing for the Admiralty, War Office, and others.
- F.—Increase of printing causes an extra expenditure, under this Sub-head, that may be estimated at 5,000 *l.*; and the rest is attributable to a decided augmentation in the value of the stock in hand.
- G.—There has been a rise in the price of Parchments, as well as increased consumption, during the current year; but, as by far the larger portion of these Parchments are sent to the Inland Revenue for sale to the public at a profit, the amount is of little importance.
- I.—The Excess under the Sub-head of Small Stores is due to supplies of Books to branches of the War Office and the Admiralty; to articles supplied to the Philadelphia Exhibition Commissioners, and to the Registrar of Trade Marks; Books for the Lord Chancellor's Court, Seals and Stamps for the various branches of the High Court of Justice, &c.
- J.—The new Domesday-Book, which is at last completed, and falls for payment upon the current year, accounts for nearly 5,000 *l.* of the excessive expenditure, and a long outstanding bill of Mr. Arrowsmith's for maps, for above 2,000 *l.*
- K.—A claim, not foreseen, amounting to about 1,600 *l.*, for Mr. Hertslet's "Map of Europe," explains the main portion of this Excess. The rest is due to additional publications for New Courts, Trade Marks, Explosive Substances, War Office, &c.

The Total Original Estimate, 1876-77, for the Science and Art Department, was -	297,673
Additional sum now required - - - - -	4,000
TOTAL - - -	£. 301,673

Note.—A sum of 1,000 *l.* has been annually provided in the Vote for Learned Societies and Scientific Investigation (*see* Sub-head A. of Vote 6, Class IV.), “to enable the Royal Society to defray the Expenses of Scientific Investigations considered by a Committee of the Society to be worthy of such aid.” This Committee, called the Government Grant Committee, consists of the President and Council of the Royal Society, and 21 other gentlemen of Scientific Eminence, not Members of the Council. And the Grant has been expended in aiding Investigators to provide themselves with Apparatus and Assistants, but never in personal payments to the Investigators themselves.

It is proposed that this action of the State should be extended; and that further aid should be given to research by according permission to the Government Grant Committee to recommend, in certain cases, the payment of Personal Allowances to gentlemen during the time they are engaged in their investigations; that a sum of 5,000 *l.*, including the above-mentioned 1,000 *l.*, should be taken annually; that the Royal Society should be invited to aid Her Majesty’s Government with their advice and assistance in its appropriation and expenditure, and as to the sums to be granted in each case, reporting annually to the Lords of the Committee of Council on Education on the progress made, and the desirability or non-desirability of renewing the Grant; and that this experiment should be tried for five years.

The Grant will also be applicable to the payment of such Clerical assistance as may be found necessary. It will moreover be accounted for in detail, and not be treated, like the 1,000 *l.* hitherto voted, as a Grant in Aid.

It is further proposed, that the Government Grant Committee should be increased by the addition of the Presidents of various Scientific Bodies as *ex-officio* members.

As the usual provision of 1,000 *l.* has been already made, upon the terms of a Grant in Aid, in the Estimate for Learned Societies and Scientific Investigation, 1876-77, under which Vote it will be accounted for by Her Majesty’s Treasury, the present Estimate is limited to 4,000 *l.* But in future years the full Grant of 5,000 *l.* will be provided for in the Vote for the Science and Art Department, and be administered and accounted for in detail by that Department of the Committee of Council on Education.

SUEZ CANAL (PURCHASE OF SHARES).

I.—AN ESTIMATE of the SUM required during the Year ending the 31st March 1876, in order to Pay the PURCHASE MONEY of the SHARES which belonged to the KHEDIVE of EGYPT in the SUEZ CANAL, and Expenses attendant on the said Purchase.

Four Million and Eighty Thousand Pounds.

II. HEAD under which this Vote will be accounted for by the TREASURY.

	£.
1. Purchase-money of 176,602 Shares belonging to the Khedive of Egypt in the Suez Canal - - - - -	
2. Commission of 2½ per cent. thereon to Messrs. N. de Rothschild & Sons, for their Agency in the conduct of the Purchase - - - - -	4,080,000
3. Contingent Expenses - - - - -	

III.

DETAILS of the above.

His Highness the Khedive having proposed to sell his Shares in the Suez Canal Company to Her Majesty's Government for 4,000,000 *l.*, Her Majesty's Government accepted the proposal, supposing that His Highness was still in possession of the full number (177,642), formerly belonging to him; but His Highness subsequently informed them that he had parted with some Shares, and that the number in his possession actually amounted to only 176,602, a reduction corresponding to the reduced number was accordingly made in the Purchase Money, which amounts to 3,976,582 *l.* 2 *s.* 6 *d.* Messrs. N. de Rothschild undertook to pay the above-mentioned sum to the Khedive in anticipation of the Vote of Parliament; and, in consideration of their trouble and risk, it was agreed that Her Majesty's Government should pay to them a commission of 2½ per cent. on the Purchase Money, or 99,414 *l.* 11 *s.* 1 *d.*

The balance necessary to make up a round sum is added for the purpose of meeting any incidental expenses which may be incurred.

	£.
Total Estimate, 1876-7 - - - - -	998,530
Ditto - 1875-6 - - - - -	996,746
NET INCREASE in 1876-7 - - - £.	1,784

This Increase may be attributed to normal increments of salary, &c. It has been much diminished by a saving of 3,380 *l.* in rent, at Liverpool, through the expiration of the lease of a Tobacco Warehouse, and by reductions of 2,420 *l.* for incidental expenses at Ports other than London and Liverpool, and 2,617 *l.* for Superannuations, &c.

INLAND REVENUE.

	£.
Total Estimate, 1876-7 - - - - -	1,731,304
Ditto - 1875-6 - - - - -	1,697,172
NET INCREASE in 1876-7 - - - £.	34,132

The chief cause of this Increase is the recurrence of the Triennial Assessment of the Income Tax in 1876-7, which adds 12,000 *l.* to Sub-head E., for Assessors' poundage, and 12,000 *l.* to Sub-head V., for copies of the Poor Rate Assessments, by which the Income Tax Assessors are guided.

The Increase of 6,000 *l.* under Sub-head S., is for thicker Post Cards and Newspaper Wrappers, and will be recovered from the public.

More than half the Increase of 11,297 *l.*, under Sub-head A. (Salaries), arises from the extension of the out-door establishments for Excise, to whom the duties of Distributors of Stamps have in many cases been assigned. It will be observed that this transfer of duties has led to a saving of 6,000 *l.* under Sub-head C., for Poundage to Stamp Distributors.

POST OFFICE.

	£.
Total Estimate, 1876-7 - - - - -	3,120,406
Ditto - 1875-6 - - - - -	3,036,210
NET INCREASE in 1876-7 - - - £.	84,196

Out of this Increase, 16,491 *l.* will be recovered for the Exchequer out of the Funds of Post Office Savings Banks and the Insurance Business.

The remainder (67,705 *l.*) is mainly due to the necessary growth of Provincial Post Office Establishments and of charges for Conveyance of Mails. The ratio of Increase of Cost of Collection is less than that of the Revenue.

REVENUE DEPARTMENTS—*continued.*

POST OFFICE PACKET SERVICE.

								£.
Total Estimate, 1876-7	-	-	-	-	-	-	-	851,930
Ditto - 1875-6	-	-	-	-	-	-	-	878,688
NET DECREASE in 1876-7								26,758

The Decrease is more than accounted for by a reduction of 19,000 *l.* on the Liverpool to New York or Boston Contracts, and of 18,000 *l.* on the Cape of Good Hope and England Contract.

POST OFFICE TELEGRAPHS.

								£.
Total Estimate, 1876-7	-	-	-	-	-	-	-	1,128,148
Ditto - 1875-6	-	-	-	-	-	-	-	1,097,714
NET INCREASE in 1876-7								30,434

This Increase is almost entirely due to the provision of 30,000 *l.* for "Porterage Paid Out," all of which, and more, will be recovered from the Public, and paid into the Exchequer as Revenue. Heretofore this expense has been omitted from the Estimate.
